### 1. Nature of operation

Golden Tag Resources Ltd. (the "Company") is incorporated under the Canada Business Corporations Act and is in the process of exploring its mineral properties and has not yet determined whether those properties contain ore reserves that are economically recoverable. The address of the Company's registered office and its principal place of business are 22 Adelaide Street West, Suite 2020, Bay Adelaide Centre, Toronto, Ontario, Canada.

On November 5, 2020, the Company announced that after successfully completing the application process, the Company was approved for quotation on the OTCQB operated by the OTC Market Groups. The Company's common shares started trading on the OTCQB November 5, 2020 at the opening of the market under the stock symbol "GTAGF" and remains listed on the TSX Venture Exchange ("TSXV") under the ticker symbol "GOG".

These unaudited condensed interim consolidated financial statements comprise the financial statements of Golden Tag Resources Ltd. and its wholly-owned subsidiary, Golden Tag de Mexico S.A., incorporated in Mexico.

These unaudited condensed interim consolidated financial statements have been prepared on the basis of the going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. The Company has not yet determined whether its mineral properties contain mineral deposits that are economically recoverable, and the Company has not yet generated income or cash flows from its operations.

In March 2020, the World Health Organization declared coronavirus (COVID-19) a global pandemic. This contagious disease outbreak, which has continued to spread, has adversely affected workforces, economies, and financial markets globally, leading to an economic downturn. The Canadian federal government and the Mexican government have not introduced measures that have directly impeded the operational activities of the Company other than the Company had to bring new working procedures in place. From time to time various Mexican government facilities are closed temporarily, however management believes businesses will continue to be allowed to operate and, accordingly, the current situation has not impacted management's going concern assumption. However, it is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods.

#### 10. Loss per share

The calculation of basic loss per share is based on the loss for the period divided by the weighted average number of shares in circulation during the period. In calculating the diluted loss per share, potential ordinary shares such as share options and warrants have not been included as their exercise prices were higher than the Company's share price as at March 31, 2021 and March 31, 2020. Details of share options and warrants issued that could potentially dilute loss per share in the future are given in note 8 and note 9.

Both the basic and diluted loss per share have been calculated using the loss as the numerator, i.e. no adjustment to the loss were necessary for the three months ended March 31, 2021 and March 31, 2020 respectively.

	<b>Three Months Ended March 31, 2021</b>	<b>Three Months Ended March 31, 2020</b>
